When: Friday, March 08, 2024, 9:00 AM – 5:00 PM (GMT-05:00) Eastern Standard Time (EST)
Where: Online

Delivery language(s): English
Fabric Analyst in a Day - iLink Systems, Inc. - Canada
At Microsoft, we understand that today's world is awash with data and customers are facing increasing data needs and analytics challenges. Accelerate time to value by enabling your Data Analysts to leverage Microsoft Fabric to break down data silos and unify disparate sources of data to create rich, powerful Power BI dashboards and reports – enabling you to scale analytics while reducing costs and optimizing existing data management in a governed and secure way.
Microsoft Fabric is an end-to-end analytics platform that brings together all the data and analytics tools that organizations need to go from the data lake to the business user. Fabric integrates technologies like Azure Data Factory, Azure Synapse Analytics, and Power BI into a single unified product, empowering data and business professionals alike to unlock the potential of their data and lay the foundation for the era of AI.
Microsoft, in partnership with iLink Systems, Inc., is pleased to invite you to a free one-day workshop covering the capabilities of Microsoft Fabric. Fabric Analyst in a Day is an intermediate-level training designed for Power BI Data Analysts with experience on Power BI, but new to Microsoft Fabric. The goal of this informational session is to help you understand how to consolidate your data into a single source of truth where you can analyze your data and generate meaningful insights. Data Analysts will go through the end-to-end analytics solution from ingesting data to building reports with automatic refresh. Whether you are evaluating Fabric's ability to meet organizational requirements around data unification, visualization, and analysis or wanting to learn how it can help optimize your work to create high value impact, this is the workshop for you.
At the end of the day, attendees will better understand how to:
• Identify when their organizations can benefit from using Microsoft Fabric for their specific business scenarios
• Leverage the full power of Microsoft Fabric to streamline and enhance productivity with integrated analytics platform
• Unify and transform data from across various data sources through Shortcuts, Dataflows Gen 2 and Pipelines
• Build rich and powerful reports to discover meaningful insights and make impactful business decisions with Power BI
Simply register to start learning how Microsoft Fabric can meet your business needs by creating an integrated, unified analytics solution with accessible insights that scale with ease.

Fabric Analyst in a Day
(FAIAD)

Fabric Analyst in a Day (FAIAD)

One day workshop educating the Power BI Data Analyst on how Microsoft Fabric can improve their experience and address the challenges they are facing today

FAIAD Scenario

Attendee is a Data Analyst in the Sales team. They collect, clean, and interpret data sets to solve business problems. They also put together visualizations like charts and graphs, write reports, and present them to the decision-makers in the organization.

FAIAD Partner Eligibility

Each partner organization must have a minimum of 5 certified individuals:

[DP600: Implementing Analytics Solutions using Microsoft Fabric](#)

FAIAD Lab Environments for Training

Request a lab environment to get familiar with the FAIAD

- Request **any number of environments** per organization
- Environments will be **available for 3 days** (72 hours)
- Start time should be 3 days minimum from the time of request
- **Pause VMs when not in use**
- Request at <https://aka.ms/FAIADrequest>

FAIAD Training Environment Request - 3 days

This form should be completed by FAIAD eligible partners and/or MS field members who wish to test the FAIAD environment.

Environments will be provided for 3 consecutive days, in the time zone and dates requested.

Please note: Though the VM will be available all 24 hours each day, individuals should pause it when it is not in active use during this time.

* Required

1. Organization Name *
Partner Organization or Microsoft

Enter your answer

2. Please provide your full name *

Enter your answer

Real-Time
Intelligence in a Day
(RTIAD)

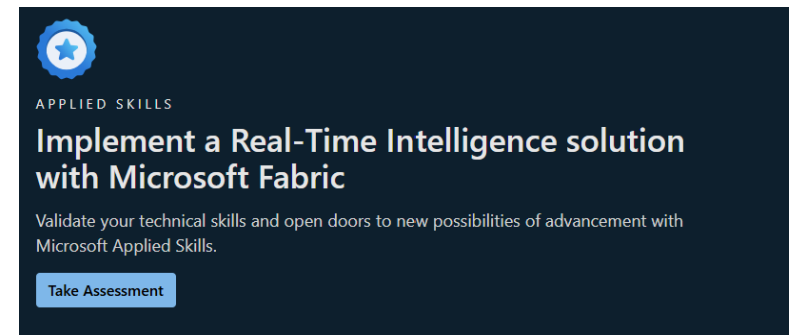

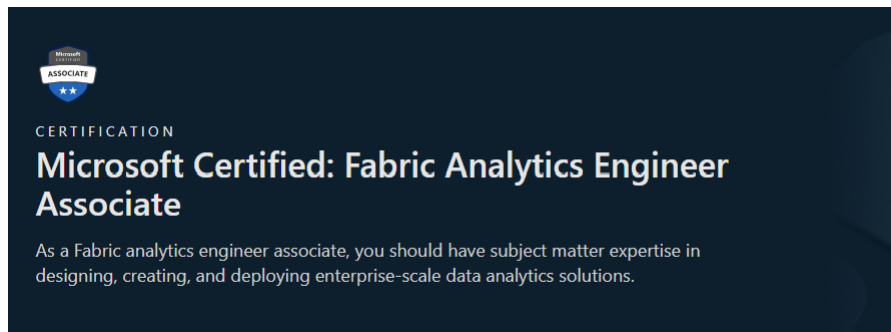

Real-Time Intelligence in a Day (RTIAD)

One day workshop targeted at Power BI Developers looking to extract insights and visualize streaming and time sensitive data.

RTIAD Eligibility

Each partner organization requires:

- Minimum of 5 certified individuals for [DP600: Implementing Analytics Solutions using Microsoft Fabric](#)
- 5 trainers to have completed [Implement a RTI solution with MS Fabric](#) applied skills assessment

RTIAD Train the Trainers

Session to train partners on RTIAD
content and delivery best practices
scheduled for:

- November 18 – Americas (register [here](#))

The screenshot shows the Microsoft registration page for the 'Real-Time Intelligence in a Day (RTIAD) - Train the Trainer Americas - Central Time' event. The page is titled 'Real-Time Intelligence in a Day' and includes the event details: 'When: Monday, November 18, 2024, 9:00 AM – 5:00 PM (GMT-06:00)' and 'Where: Online'. The page is in English and features a registration form with fields for First Name, Last Name, Email Address, Phone Number, Country Code, Job Role, Company Name, and Country. There is also a checkbox for 'I would like the event partner to share with me information about their products, services and offers related to this event'. A 'Register' button is visible. Below the form, there is a section for 'Learn More about Real-Time Intelligence' with links to 'Start a Real-Time Intelligence trial', 'Read the latest posts in the Microsoft Fabric blog', and 'Visit the Real-Time Intelligence tutorial documentation'. A note at the bottom states: 'Note: Microsoft Teams delivers a rich, interactive experience that works best with the Teams app. We recommend downloading the app if you don't have it, as not all browsers are supported. When you join this event, your name, email and/or phone number may be viewable by other session participants in the attendee list. By joining this event, you're agreeing to this experience.'
